Extract from P.W.D. File No. 583 of 1-9-18

1)
Please refer
and to
referred
H-11/11/18

The papers re: Water Supply may be copied out and put in the general file for reference.

Town Planning Schemes cannot be clubbed together in this manner.

Each town should be taken up according to urgency and progress in preliminary investigation the local bodies consulted. It is not intended that the grant is to be spent in estimate etc.

The 25,000 should be spent at least in one or two schemes -- and these should be fully carried out.

I object to sanction any Estimate from the grant of 25,000. These Town Planning Schemes ought to be more or less self-supporting in the end. Expenses for acquisition will be heavy at the beginning.

(Id) A.R.B.
21-9-18

(Id) B.R.

See margin above
(Id.) B.T.K.

2)
Copy of papers relating to water supply has been taken. The file may now be returned to the Public Works Department.

(Id.) D.S. (Id).
23-9-18. B.V.N.

Returned with compliments to the Secretary, Public Works Department.

By Order

(Sd). B.T. Kesaviengar,
For Revenue Secretary to Govt.

24-9-1918

3)
Resubmitted to the Extra-member of Council, with the opinion of the Municipal Branch of the Revenue Department duly recorded.

2. As the Second Member objects to sanctioning any estimate -- for investigation or preparation of schemes from the grant of Rs. 25,000 provided in the Budget for Town Planning operations, -- no draft final note can be put up till further orders are re-

2

received in the matter.

(Sd.) S. Cadambi,

Offg. Secretary to Government,
P. W. Department.

(Id) V.B.
19-10-17.

Camp, Mysore,
19th October 1918.

These papers may be taken up for consideration when the other scheme about water supply has received approval. It appears to me that Water Supply and Sanitary Schemes should, as a rule, be taken up together and not piecemeal, as has often been the case. Town Planning Schemes, may also be considered with advantage along with Water Supply and Sanitary Schemes.

(Id) P.R.
20-10-18.

Resubmitted to the Extra Member of Council.

Remarks
by
Extra-Mem-
ber of
Council.

Seen.

It has been distinctly ordered by the Dewan vide -- slips H and T, that the sum of Rs.25,000/- is intended for the survey and preparation of projects for Town Improvements, and not intended for expenditure on execution of the, or any portion of the works. The surveys have been undertaken, and are in progress in accordance with those orders.

The towns and the works have been selected from the state moneys obtained from the Deputy Commissioners

Seen.
It ought
to meet
the situa-
tion --
I think.

The draft G.O. proposed to be issued as regards the preparation of water supply schemes has my concurrence and is herewith returned.

A similar order regarding Town Planning and Drainage schemes will, in my opinion, be advantageous.
Quite so.
Action may be taken to give due effect to this.

(Sd) C. Cadambi.
Secretary to Government,
Public Works Department.

26th October 1918.

Programme approved.

(Id) P.R.
20-10-18.

Forwarded with compliments, to the Secretary to Government, Revenue Department.

Approval to the programme for the year 1918-19 has been communicated to the Superintending Engineer, Southern Circle, pending the issue of the draft Government Order regarding the procedure to be followed in future in the preparation of water supply schemes.

As regards Town Planning and Drainage Schemes, similar orders may be issued in a separate Government Order or the draft Government Order already put up may be so modified as to include these items also.

(Sd). S. 'Cadamby,

Secretary to Government,

P. W. Department.

(Id) R.V.S.

(Id) V.B.

(Id)
8-11-18.

The file relating to the order to be issued in regard to -- the programme of water supply projects has been detached and submitted separately. It does not appear feasible to include the -- drainage and town-planning projects also in the General order regarding water supply programmes. If approved a separate order --- will be prepared and submitted in a separate file containing copy of the notes from pages 16 to 20 of this file. After taking a -- copy of the notes this file may be returned to the P.W. Sectt

(Id).
D.S. 20-11-18.

It will not be convenient to revise the general order - regarding investigation and preparation of Water Supply Schemes so as to include Drainage and Town Planning Schemes also. It is - better to deal with the latter in a separate order. The file may be returned to the P.W.D. Secretariat after the perusal of the -- same by the Second Member.

8 no 2620
22 9 20

Subd to Rev Ser

The note from the Chief Engr re a
General order on drainage schemes had
been kept for separate study by me but
the paper inadvertently got mixed up
with some miscellaneous note books
and lost sight of. In searching for
some note books, I came across the file
book and immediately passed it
into the Branch for my attention. No
reminder having been received, I lost
sight of the existence of the file and
did not remember it also at the time
I gave charge in Jan 1920 I
regret the mistake very much

18 It is seen from the statement put up, that some drainage system is called for in the marginally noted places, and that it is urgently needed at the places underlined.

19 The resources of the municipal Councils of most of these places are slender to bear any additional strain, and they expect the Government to bear the entire cost. Consequently, the other municipal Councils seem to be prepared to pay a portion of the cost, if the Government will advance the required amount as a loan. The remaining portion to be met from State funds is 20 In the Government Order concerning

ing Water supply projects, it is laid down as one of the conditions that if the local body concerned bears a moiety of the cost of the project, the other half will be contributed by the State.

Perhaps the same principle may be adopted for

drainage projects also, if it is considered desirable to place a similar order on record. This manner of apportionment of the cost as proposed to

be adopted in connection with the drainage of the

Bangalore City and the Municipal Council have agreed to bear half the cost

20 It is however a point for consideration, whether at this time of financial stringency, Government can

Flag H

Does not seem quite necessary

Serial
No

can afford to finance such works schemes as a general
and measure especially when Municipalities cannot even
bear even half the cost. -

22 It may be noted that no provision had been
made in the last year's State Budget for making ~~the~~
grants in aid of such projects - Nor has any provi-
sion been made in the current year's budget. Perhaps
the issue of a general order may be deferred till the
financial condition improves. If however
~~in reply to the paper under disposal it is not~~
~~to be necessary~~ specific proposals are
received in individual cases
on account of urgent necessity,
each case may be considered
on its merits, and suitable
orders passed.

15) Expenses of this point two years has
made it clear to me that drainage
schemes have been broken up in
a manner which makes it impossible
to finance them. They have been
invariably an elaborate and expensive
they are personal operations as that probably
every one of them will be all the time
for a careful reason. The point kept
in mind as affecting the being of the
conclusion, not excluding finances. If
this is done in the fulfilment of the
of meeting the recurring charges. For
may come to the help of the central bank
33 1/3 per cent of the total charges. When the
fulfilment is unable to meet the balance
at once but can manage to pay the
interest & sinking fund charges. The
amount may be advanced by the
fund at the present moment it can
be only an interest bearing loan the
date being that the fund has been
itself. These are being done the present

7	Madhavu	- 150 -	Rs 1,19,310/-
8	Chikilawa Chikilawa	- 150 -	Rs 1,19,310/-

On 10-1-19 after visiting his office -
This has not come to Government.

The project is under study in the Superintending
Engineer's office - This has not come to Government.

The project was returned by the Superintending Engineer
on 20-2-19, as being too costly for the time, to the
Executive Engineer, Sanitary & Water for Madhavu
in consultation with the Sanitary Commissioner.
This has not come to Government.

The project is under study in the Superintending
Engineer's office - This has not come to Government.

It is reported by the Executive Engineer in his
letter No. 7 that the Sanitary
Engineer has been authorized to estimate the cost of
the project and the matter is still under consideration
in the Sanitary Engineering office.

✓ The scheme is absolutely necessary
 In Rs no 2395/ent 44-47 - a of 10 to 417
 a grant of Rs 50000 have been granted
 by Govt & the mly has been permitted
 to raise a loan of Rs 50000
 [Rs 10000 has been put down in
 the original sketch for both W.S. &
 drainage schemes under each part]

The financial contribution of the
 mly does not permit of any ^{allotment}
 being made - to Govt - has been
 applied for from maternal funds
 & of Rs 6000 for both W.S.
 & drainage schemes

The income of the mly is too
 insufficient to meet any loan on
 drainage

The loan drains are to be con-
 verted into either oval or "V" shaped
 drains

The Govt requires regular
 surveying and providing with
 either oval or "V" shaped drains
 The Est will be about Rs 15000 -
 the mly is unable to meet the
 entire Est - the amount may
 be advanced by Govt as a loan
 & repaid in 20 years the
 Govt will pay any reasonable
 interest on the loan thus advanced

The mly is too poor to undertake any
 scheme

no argument for any elaborate
 scheme -

For most of higher levels there is no free flow of drainage water. The drains require improvement. The Council can share only Rs. 500 for the repairs of existing drains.

The Estimates are being got prepared for drainage works.

A few drains have to be constructed - there can be done at a moderate cost in a few years.

The drainage scheme is more urgently required. For this, a scheme has been prepared.

The drainage is as urgent as the N S scheme.

✓ drainage works are now necessary.

✓ drainage works are necessary - the question will be taken up seriously after the completion of converting the S. S. into a S. S. as far as possible. Funds are available.
